# What is a land-use finance mapping exercise?

## LANDSCAPE OF LAND USE FINANCE

**KEY**

|                                 |  |            |  |   |
|---------------------------------|--|------------|--|---|
| PUBLIC MONEY                    | PRIVATE MONEY  | ?: UNKNOWN |  | Finance for activities that clearly contribute to reducing deforestation drivers and to enhancing and protecting forest cover.  |
| PUBLIC FINANCIAL INTERMEDIARIES | UPSTREAM SOURCES OF FINANCE AND TRANSFERS BETWEEN ACTORS |            |  | Finance for activities that could contribute to maintaining and enhancing forests if certain enabling conditions were in place. |

# How can the Land-use Finance Tool help?

## Planning

What are the main financing gaps, opportunities and priorities?

## Aligning

How to align unsustainable investments to forest and climate objectives?

## Monitoring

How much money has been spent on reducing deforestation over time?

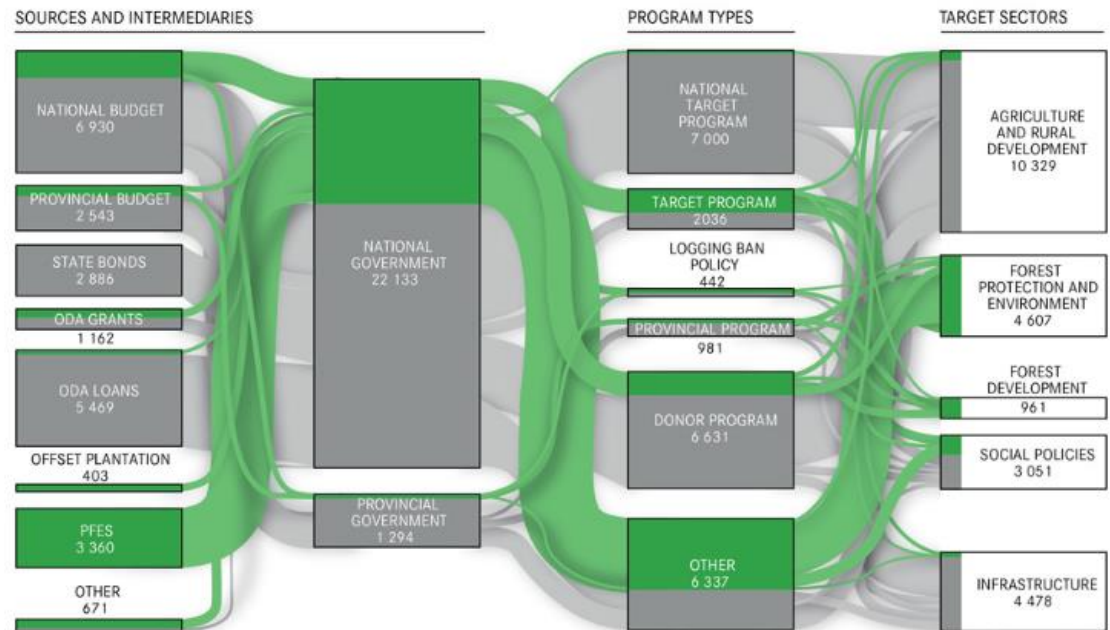

# Example 1: Planning REDD+ at sub-national level in Vietnam

## Results

- ✓ Quantified the volume of planned financing for REDD+ for 2016-20
- ✓ Identified key financing gaps for the implementation of REDD+ at sub-national level
- ✓ Integrate forest safeguards in new Planning Law
- ✓ Tracking of investments over time

### OVERVIEW OF PLANNED PUBLIC INVESTMENTS IN LAND-USE IN THE CENTRAL HIGHLAND REGION, VIET NAM, 2016-2020

VND 7.2 Trillion  
ALIGNED to NRAP objectives  
VND 16.2 Trillion NON ALIGNED

**KEY**

|                 |   |  |
|-----------------|---|--|
| Aligned to NRAP | Planned activities which contribute to reducing deforestation drivers and to enhancing and protecting forests, in coherence with policies and measures promoted by the National REDD+ Action Plan (NRAP - Decision 419) | NRAP: National REDD+ Action Plan   |
| Non-aligned     | Planned activities whose impact on the forest cover is unknown. These planned activities are not aligned with the objectives of the NRAP, but could be if certain enabling conditions were in place.                    | ODA: Official Development Assistance<br>PFES: Payments for Forest Environmental Services |

*All figures in VND billion*

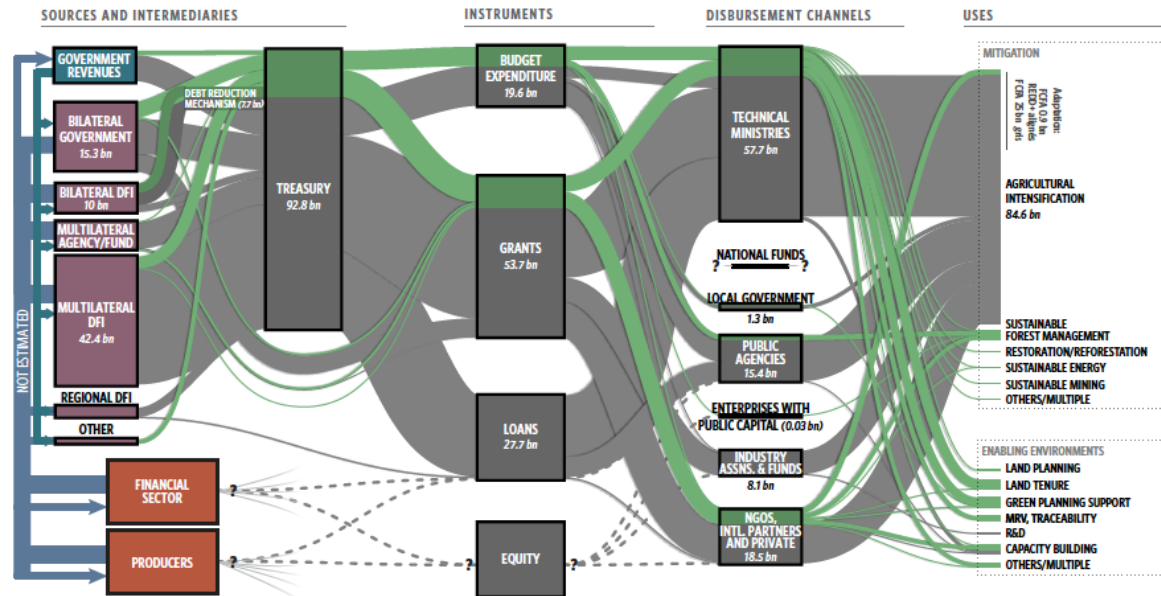

# Example 2: Redirecting forest-risk investments in Côte d'Ivoire

## Results

- ✓ Identified and quantified public investments potentially increasing the pressure on forests
- ✓ Greening agricultural finance could increase by 5 available funding for sustainable land-use
- ✓ Informed cross-sectoral dialogue on the coherence of spending

## THE LANDSCAPE OF REDD+ ALIGNED FINANCE IN CÔTE D'IVOIRE IN 2015

**FCFA 16.8** BN REDD+ ALIGNED  
BN TOTAL GREY FLOWS  
 FCFA 84.2

**KEY**

- PUBLIC MONEY** (Blue)
- PRIVATE MONEY** (Red)
- UNKNOW** (Grey)
- REDD+ ALIGNED FLOWS** (Green)
- GREY FLOWS** (Grey)

REDD+ aligned activities are those that clearly contribute to reducing deforestation drivers and to enhancing and protecting forest cover. Grey activities are those that could contribute to maintaining and enhancing Côte d'Ivoire's forests if certain enabling conditions were in place.

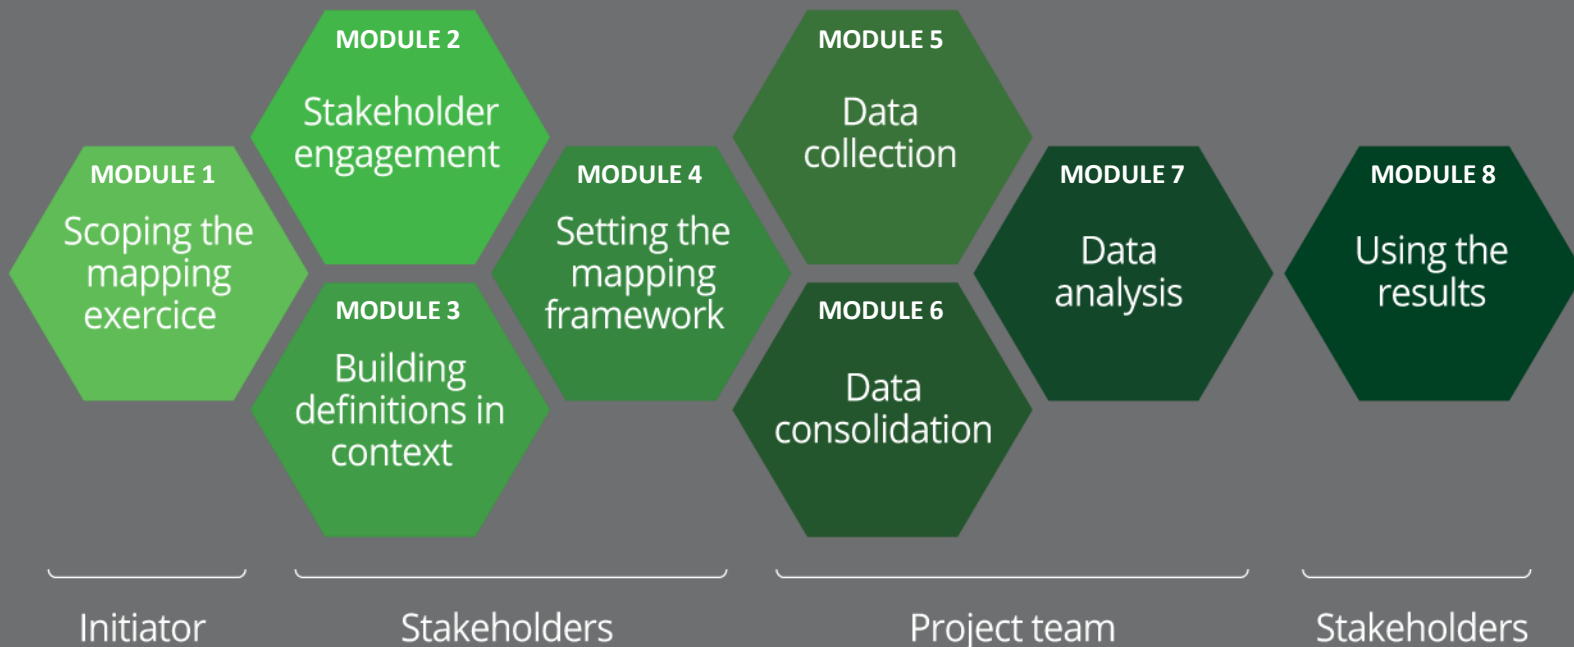

# Early lessons: what is needed to align investments to forest and climate objectives?

- Clear sectoral/supply chains guidelines
- Comprehensive investment frameworks
- Increased scrutiny of public and private spending

# The land-use finance tool
