COLRUYT GROUP

7 overarching goals, 27 sub targets (colruyt group's social & environmental commitments)

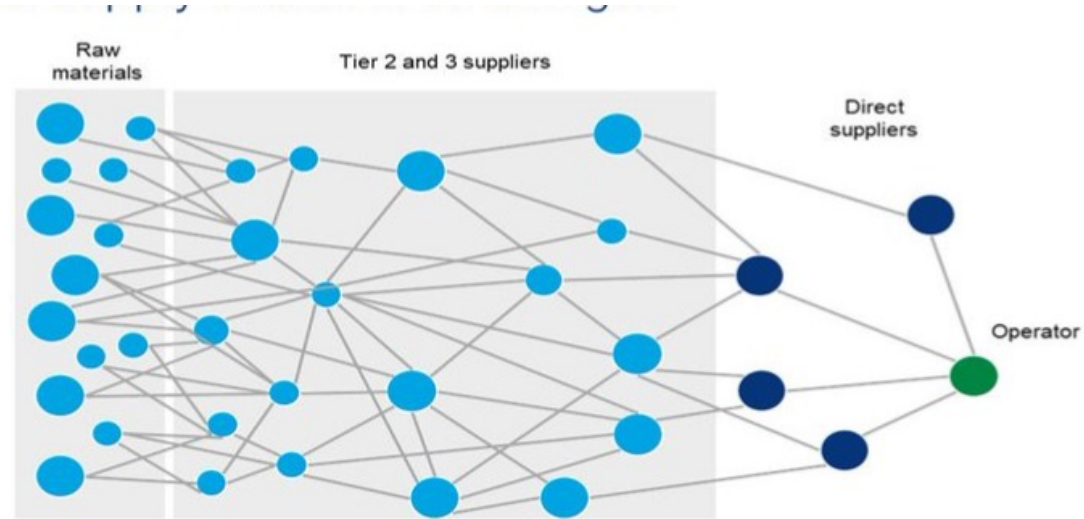

By 2030 we exclude deforestation and land conversion for products from risk commodities.

By 2030 we contribute to realising living income and living wage for our top 5 risk value chains.

challenges

Operators have limited visibility of a significant part of their supply chain

Source: Wood Mackenzie

7. Please note these traceability levels were reviewed by the monitoring working group for the 2022 monitoring round, leading to limitations when it comes to comparing 2022 data to previous years.

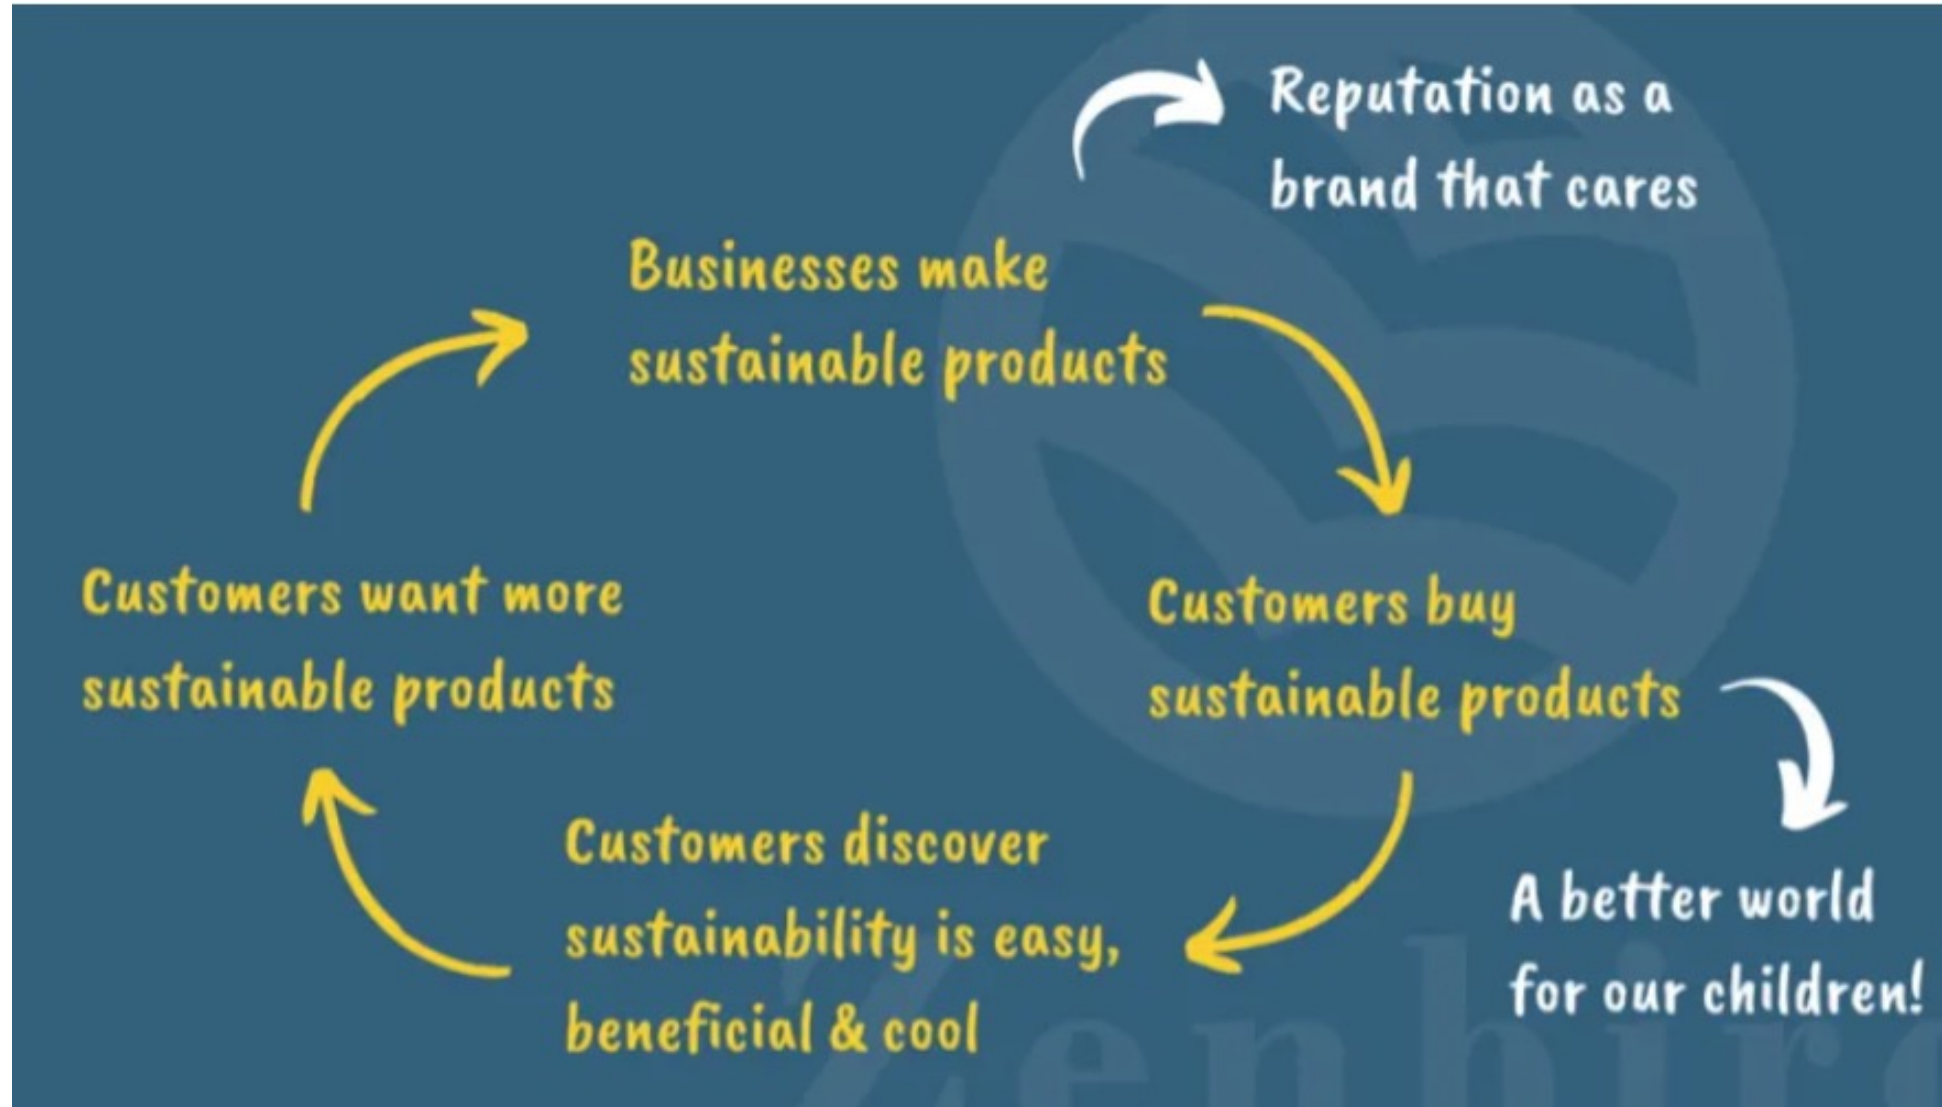

Share of volumes per traceability score (B2B)

Enabling conditions

How would a living income and no deforestation affect your company?
